VOLUME XIV. MILWAUKEE DAILY SENTINEL, TUESDAY MORNING, FEBRUARY 24, 1857. NEW SERIES.

THE DAILY SENTINEL.

RUFUS KING & WM. H. WATSON, PROPRIETORS.

Under the Name and Firm of Rufus King & Co.

MILWAUKEE:

Tuesday Morning, Feb. 24.

New Postmaster General.

The telegraph reports that Mr. J. GLANCY JONES, of Pennsylvania, has declined the appointment of Postmaster General under Mr. BUCHANAN, and that the office has been tendered to and accepted by Dr. ALEXANDER, of New Jersey.

The Literature Fund.

It will be seen from the letter of our Madison correspondent, that a bill has been introduced into the Legislature which, without trenching upon the University Fund, extends liberal aid and encouragement to the Colleges, Academies and High Schools in our State. We think the provisions of the bill judicious and practical and hope to see it become a law.

M. & M. RAIL ROAD—NEW SUPERINTENDENT. We learn that the Executive Committee of the Milwaukee & Mississippi Rail Road Co., yesterday appointed WILLIAM JERVIS, Superintendent of their road. Mr. JERVIS is well fitted, by long experience and thorough acquaintance with the business of building and running Rail Roads, for the post of Superintendent. He was, at one time, Engineer of the Rock Island R. R., and afterwards Assistant Superintendent of the Michigan Southern road. We think the appointment an excellent one, for the company and for the public.

The Great Swindle.

We heard yesterday some further particulars of the gang who have been defrauding Western Banks and Bankers, during the last fortnight, by selling exchange on New York. GILMAN, who operated to the extent of $16,000 in this city, stopped long enough at Chicago, on his way hither, to victimize some parties there, to the amount of $10,000. Returning hence to Chicago, he there encountered one of the TRUE's, who had made a raise of $20,000 in that city. The pair then started off together for St. Louis, where they managed to get $40,000, making *eighty-six thousand* dollars, in all, that they obtained in the three cities of St. Louis, Chicago and Milwaukee. Having thus filled their purses these worthies started from St. Louis, on Sunday week, on the steamer *White Cloud*, and on Tuesday last—a week to-day—were at Cairo. As Deputy Sheriff BECK, our Chief of Police, is on their track and three other good officers are watching for them at different points—communicating constantly by telegraph with each other and with Sheriff PAGE, who directs their movements—we have strong hopes that the rogues will be caught and brought to justice. We understand that C. F. TRUE—one of the party—who was overhauled in Detroit, is now in jail at Cleveland.

ST. CROIX AND LAKE SUPERIOR R. R.—A change has taken place in the direction of this road, Messrs. BARLOW, HOYT, HALL, VITTUM, WELL, GRAY, HUNTER, BROWN and GIBSON having resigned, and the following gentlemen elected in their places, viz:—SAMUEL BROWN, GOODRICH, VEIET, KILBOURN, LOCKWOOD, FARWELL, WEEKS, KREELAND and MITCHELL, who compose the present Board.

We presume that the old Company have disposed of their charter and other property to the La Crosse and Milwaukee R. R. Company, who obtained from the State the grant of public lands voted by Congress in aid of a road from the St. Croix to Lake Superior. The consideration is variously stated at from half a million to a million of dollars. The new Board intend to prosecute the work of surveying and constructing this road with energy and despatch. The proceeds of the Land Grant, it is believed, will furnish ample means to build the road.

THE "CAUCUS" RECOMMENDATIONS OF NO ACCOUNT. The Sheboygan *Journal* (dem.) thus turns up its nose at the recommendations of the midnight conclave at Madison:

As to the Legislative recommendations, we think them very harmless, indeed; and do not believe they will particularly effect Mr. Buchanan one way or the other, any more than will the vindictive articles which appear in the *American*. We do not believe that it will be the policy of the President elect to disturb such officeholders as are true to democratic principles and faithful to the trust committed to him.

The "caucus," it will be remembered, recommended a new deal all round.

The Mineral Point *Democrat* indulges in the following squib at the enterprising gentlemen who have undertaken to relieve Mr. BUCHANAN of the appointing power:

THE COUNTRY SAFE.—The Democratic officeholders of Barrel-Town, Wis., have held a caucus and recommended to Buchanan several changes in the Federal Offices in this State. The persons present at the Caucus were the Town Clerk, the Pathmaster, the Treasurer, and two members of the Town Board. We are promised the proceedings and the names of the the fortunate persons who have received their recommendations, in time for next week.

Even the Madison *Argus* has suddenly changed its tune and whistles the caucus down the wind in this uncermonious fashion:

As for Legislative caucuses, we have not endorsed—nor do we intend to endorse, the system, or the recommendations, beyond that of Mr. SHARPSTEIN.

In short, with the exception of the *News*, and two or three other minor organs, the whole democratic press and party utterly repudiate the doings of the Legislative "star-chamber," and protest against the appointment of their nominees.

QUALIFYING A COMPLIMENT.—The Oshkosh *Courier* some days since, in seconding the caucus recommendation of Mr. J. R. SHARPSTEIN, as P. M. at Milwaukee, took occasion to speak of him as "more than a match for the *Sentinel*, "*Free Democrat*, *Wisconsin* and *American* "combined." Appreciating the full force of this compliment we suggested that it would be bad policy to bury such an editorial Hercules in a paltry office; since it would be difficult to fill his place. Whereupon the *Courier* rejoins thus:

But we do suppose that there is hardly a School District in the State, which could not furnish a democratic editor who would be "a match for all the Shanghai fraternity in Milwaukee combined." Any more "queshuns" to ask, Mr. *Sentinel*.

Only to know, if the editor of the Oshkosh *Courier* is a fair average of what every "School District in the State" can furnish, in the way of "democratic editors."

NEW YORK TOWN ELECTIONS—OLD STEUBEN.—The Albany Evening *Journal*, of the 19th inst., has the returns, in full, of the town elections in Steuben County, one of the strongholds of old fashioned Democracy in the Empire State. The Supervisors elect are thus divided. Republicans 25, Democrats 4, Know Nothings 2. The correspondent who furnishes these results adds as follows:

The Democrats and Know Nothings united in most of the towns to defeat the Republicans.—Prattsburgh and Wheeler were carried against us by two votes only. Of the Republicans elected, eight or nine have heretofore been Democrats.

Matters must look blue enough for the *bogus* democracy in New York, when such counties as STEUBEN, ST. LAWRENCE, HERKIMER and DELAWARE—time out of mind the main-stays of the democratic party—go almost unanimously REPUBLICAN.

THE VICE-PRESIDENTIAL CANDIDATES.—Hon. WILLIAM L. DAYTON, the Republican candidate for Vice-President, has been tendered the nomination of Attorney-General of New Jersey by Gov. NEWELL.

Hon. JOHN C. BRECKENRIDGE, the Vice-President elect, will have to ride 140 miles on the morning of his inauguration, (if, as the Philadelphia papers state,) he has accepted an invitation to be present at the inauguration ball on the 3d of March, by the Twelfth Ward Democratic Association of Philadelphia.

Hon. ANDREW JACKSON DONELSON, the American candidate, was robbed on the 5th instant, on the steamboat Daniel Boone, from Nashville, of a draft on New Orleans for four thousand dollars and a gold watch.

FROM MADISON.

Editorial Correspondence of the Sentinel.

MADISON, Feb. 21, '57.

The Senate has been hard at work all day, and disposed of a great deal of business. Among the bills passed was the one authorizing the Southern Wisconsin R. R. Co. (the Milwaukee & Mississippi R. R. Co.) to consolidate and connect with the short branch road to be built by the Galena people from Warren, Illinois, to their line in this State some distance west of Monroe.

THE UNIVERSITY.

The bill authorizing the University to borrow money from the capital of its own fund, for the erection of the main building, after an animated discussion, passed by a large majority. Whatever serious opposition has been made to it, has disappeared by a sort of tacit compromise, arising from the general willingness to pass another bill, which was the special order for the afternoon, and which is to establish the

LITERATURE FUND.

The bill proposes to establish a fund for the benefit of Academies and Normal Schools, not by diminishing the amount to be distributed from the present School Fund, but by setting aside 33 per cent of that portion of the school fund to be derived from sales of swamp lands.

Nine Regents are to be appointed by the Governor, three to go out of office each year, to have charge of the distribution of the Fund annually—the Governor and Superintendent of Instruction to be *ex officio* members of the Board.

Applications for a share in the distribution of the income are to be made to the Regents, and they are to distribute it annually to Colleges, Academies and Union High Schools, according to a designated ratio.

Colleges to be entitled to a share, must have $50,000 invested for their use, must be fully organized and giving instruction in the usual College course of study, and must have in operation a Normal Department, for the instruction of Teachers.

Such institutions may also borrow on mortgage not more than $10,000 each from the capital of the Fund.

Academies must have at least $5,000 invested for their use, and give instruction for Teachers.

The bill meets with marked favor, and will doubtless pass, with such amendments as suggest themselves to favor. As Senator Chase well remarked, in some brief remarks in favor of the bill, the great want of our Common School System is *thoroughly educated teachers*—not educated merely so far as their own acquirements of knowledge is concerned, but educated *to teach*. I trust that this bill will become a law, and do not doubt that the wisdom of its establishment will be vindicated shortly, in the sending out into the State a host of young men who shall train up the rising generation to honor and usefulness.

LEGISLATING BY LIGHTNING—WOMAN'S RIGHTS.

Sixty-nine bills and memorials passed the Assembly to-day, the titles of a few which have been sent by telegraph. The general character of the assortment is about as usual.

At the opening of the session, the Speaker laid before the Assembly a memorial from those strong minded females, Mrs. Rev. Antoinette L. Brown Blackwell, Lucy Stone Blackwell, and Ernestine Rose, on behalf of the strong minded generally, on the subject of their odd notions of public policy in general, and women's rights in particular. It was referred to the Committee on Charitable Institutions.

The State Prison Committee reported against the claim of S. Wilcox, for $2,000 for the land on which the State Prison stands. They say that the deed of the land to State is absolute, and that it can be proved that the former owner has received consideration. The same Committee reported that they have visited the Prison, and find the books and accounts correct, though there are items improperly charged to the State. As the result of their examination, they report an important bill, of which the material provisions are as follows:

Three Inspectors to be appointed by the Governor, who are to visit the Prison quarterly, and to examine into all matters connected with its management—to be paid a *per diem* while on service—to let all contracts—to make and amend rules, and generally to exercise a supervision over the institution.

The Committee also reported a bill to pay Mr. McGarry $800 for his expenses in defending himself against the charges recently made against him.

The Judiciary Committee reported favorably on the bill to restore the right of appeal from the award of juries in streets in Milwaukee. Mr. Huertel, after a while, moved to refer it to the city delegation, which of course brings an adverse report from them, since the Common Council and the property holders are at issue. Did you ever think what a close corporation we have in Milwaukee? Several of the Common Council are always in the Legislature, and all bills go to them, and are reported by them, according to their fancy, while the people, as a general thing, know little of what is going on here.

A SAMPLE LIST OF BILLS.

The list of 69 bills passed to-day is of the same sort—only more so.

COUNTY SEAT SCRIP.

There is a bill pending for dividing Chippewa County, and making three new counties, to be called, Fremont, Flambeau, and Price. This is a Senate bill. I don't know who is interested, and I wish there existed any good reason for the new counties, for we ought to have a Fremont County. But there is another bill, for making one new county, to be called Flambeau. It is all mapped out, a town platted for a county seat, and scrip prepared and on hand at $15 per share, each share entitling the holder to three shares when the lots are divided. Not a soul lives here now, and nobody within several miles. It is all speculation. An amusing resolution of inquiry as to the scrip in circulation about the Capitol was introduced to-day by Mr. Dean, and lies over.

The Assembly was very thin to-day—barely sufficient present to pass appropriation bills.

W. H. W.

THE DOWNFALL OF HOOPS.—Not many weeks since the New York *Evening Post* sought to enlighten its readers upon the perplexing subject of hoops and crinolines, by disclosing the secrets of their manufacture, naming the more fashionable varieties, picturing their future as it rose glowing before it, and making appropriate moral reflections, which it enforced and illustrated by a copious citation of ancient and modern authorities, both in prose and verse. The same paper records the untimely decease of the fashion, which was then just expanding into full bloom.—She by whose fiat it sprung into being has decreed its death, and herself becomes its executioner. The Empress Eugenie has appeared in public without either hoops or crinolines. Paris will follow her example, and New York will speedily copy Paris.

The London correspondent of the New York *Tribune* writes as follows, Jan 30:

I have to chronicle an event of the very highest importance, which has recently happened at the French court, and which cannot fail to interest deeply society in America, as well as in Europe. *The Empress Eugenie made her appearance last week, without any crinoline or hoops*, and looked the better for it. Feminine diplomatists predict now a speedy fall of the reign of hoops, though it is not certain whether even a French Empress may be able to succeed with such a *coup d'etat*, and to overturn the ugly fashion by her sovereign will. Louis Napoleon, who was always opposed to the crinoline, has made up his mind to crush it, and, flushed with success in the diplomatic line, does not doubt that his endeavors will triumph.

THE FASTEST GROWING STATE.—There is a rivalry of rapid growth between Wisconsin and Iowa. Up to 1850, and perhaps since, Wisconsin has grown faster than ever State grew before, excepting California in the first heat of the "gold-fever." But the census taken last year in Iowa, the returns of which are just published, show that Iowa is not far behind, if indeed she does not contest her pre-eminence with her.—The following statement shows the increase of population since the settlement of what is now the State:—

1836,	10,531	1847,	116,204
1838,	22,859	1849,	130,945
1840,	43,116	1850,	192,201
1844,	71,650	1854,	503,625

It will be seen that the number of inhabitants has more than doubled every four years, and that in twenty years it has increased fifty fold! At the same rate, it must this year be not far from 600,000.—*Albany Evening Journal.*

Iowa has indeed grown rapidly, but she cannot yet contest the pre-eminence with WISCONSIN. We annex, in parallel columns, the respective population of these two States at the different periods named, and ask of our friends of the Albany *Journal* a republication of the table:

	IOWA.	WISCONSIN.
1835	10,531	11,683
1838	22,859	18,180
1840	43,116	30,945
1846	78,988	155,277
1847	116,204	210,546
1850	192,201	305,391
1854	326,011	
1855		552,119
1856	508,625	
1857 [est.]	600,000	750,000

MURDEROUS.—Since the heavy storm of a week or so ago, we hear of over 160 deer having been killed in different parts of the county, in wanton violation of the law instituted for their protection. In Lawrence, two men killed 80 with clubs and axes, the deer in some cases coming to them as if for protection. The crust over the deep snow was strong enough to sustain the weight of the men, but the poor deer sank through it and were slaughtered before they could extricate themselves. Many of our citizens, no doubt, are ignorant that the law goes into operation on the 1st of February of each year, and probably will only become conscious of the facts when the law has been enforced against them a few times. We know of no fitter opportunity for opening the eyes of such persons as now, by making an example of those who have shown such a lack of humanity.—The Indian, who depends upon the game in the woods for his support, would consider himself disgraced if he took his game at such a disadvantage as these men did in Lawrence.

—Green Bay Advocate Feb. 19.

HIGH PRICE FOR PORK.—The Stevens Point *Pinery* of the 19th inst. says:

Pork sells in the street at this place for from $11 to $15 per hundred in the hog. By the barrel, a very poor quality brings $25. A good article brings almost any price from $28 to *thirty-five dollars per barrel.*

For the Sentinel.

Capital Punishment.

Absence from the city has compelled me to delay until now replying to your correspondent, *E.* His article may be considered as a fair specimen of what is usually advanced upon that side of the question, and as *E.* really seems to be deceived by his own sophistry, it may be well to examine and dispose of it.

E. expressly admits, that the main object of punishment is the prevention of crime! so far very good; and then with a simplicity truly refreshing, asks, "Has Capital Punishment had the effect to prevent murders?" and, as he thinks answers it, in the following manner. "New York, too, has the death penalty in her code, but did that prevent the Bond street murder, and the other five murders recently committed in the cities of New York and Brooklyn, of which no clue or trace has yet been found?" This mode of reasoning is rather remarkable. I stated that the main object of punishment is to *prevent* crime—not to *annihilate* it;—the latter I regard impossible. Any one ought to be able to perceive the distinction; and I think *E.* will discover it, if he will try. It can not be that *E.* seriously imagines that any punishment whatever, whether mild or severe, will *totally* prevent and *annihilate* crime. But if the position of *E.* be correct, there should be no punishment at all for crime, for he must concede that crime cannot be annihilated by any code.

To enable *E.* to understand this more clearly, I will illustrate his argument further. Robbery is an offense against the laws, and is punished by imprisonment. No sensible man has ever yet complained of the severity of the punishment.—Many thousand men have been arrested, tried, convicted and sentenced to imprisonment for robbery; and yet, notwithstanding, the offence continues to be almost daily committed. At every term of our Court somebody is sentenced for robbery. But who has ever thought of using this argument of the "friends of a milder code," the advocates of no punishment; "I am opposed to imprisoning men for robbery; I am a friend of a milder code; the present severe punishment does not prevent robbery, let us apply the gentle law of love to restrain the robber."—Or, using the very language of *E*, should address the Legislature thus: "The advocates of imprisonment for robbery have had time enough to test the practicability of the measure, and if the history of the world teaches anything, it teaches that it has proved a total failure." Now, does not *E.* perceive that such reasoning is absurd, dangerous; and yet it is precisely the same argument applied to imprisonment for robbery, as he has used against capital punishment for murder. It is true that punishment does not annihilate crime, but it is folly to say that it does not diminish it. If the fiends who butchered Dr. Burdell are caught and *hung*, it will certainly prevent them from murdering any other victims; and, altho' it will not prevent *all* murders in New York and elsewhere, yet the dread of suffering a like punishment will cause many others to abstain from murder.

E. next asserts that the frequency and enormity of crime is in proportion to the severity of punishment, and alludes to the ancient cruelty of the English law in punishing highway robbery, horse-stealing, and other lower grades of offences with death. This is foreign to the question under discussion, which is, whether the death penalty ought to be inflicted upon the *murderer*, not upon the horse-stealer, or other offender. On this question, the position of the advocate of capital punishment is perfectly plain and intelligible, and I will repeat it. The main object of punishment is the prevention of crime—murder is the most heinous crime—whatever punishment will best tend to prevent murder ought to be enacted—capital punishment will do this better than any other, because men dread death more than they do any other evil, or punishment.

In my former article, I stated that the fear of death is the most powerful motive which influences man, but this very plain proposition in the connection which it is used, *E.*, with a lamentable incapacity, totally misapprehends. I spoke of the fear of death, as a motive to *restrain from the commission of crime*, not as a motive *which impels to action*. *E.*, however, quotes it, and proceeds to say that "men have perished on the sea—by accidents on railroads, etc. Yet men are not deterred from going to sea, traveling, etc, thro' the fear of death." How true, and yet how puerile! "In the midst of life we are in death." We are constantly exposed to *danger* of death, but we are not in constant *fear* of death. Eating, drinking, etc. may result in, or may cause death. If we knew that they would be *sure* to result in death, than there would be far less traveling, going to sea, etc; but the chances happen to be millions to one in favor of life, and so men continue to travel, go to sea, and do the like innocent thing. It is true that murders are committed, notwithstanding the offense is punished by death, and in many cases, doubtless, the murderer is not restrained from the commission of the deed by the fear of death; but that proves nothing against the death penalty. It shows that it did not restrain him. But if the dread of death will not restrain him, what will? Will the dread of perpetual imprisonment do it? Will the dread of any of the "milder" forms of punishment do it? Will moral suasion do it?—Will the law of love, which *E.* proposes to apply, do it?

Now, I do not wish *E.* or any of your benevolently disposed readers to think that I would ridicule the power of moral suasion, or the force of the law of love, in their appropriate spheres of action. There is, indeed, need of better moral education of mankind; but, when we are talking gravely of prescribing a punishment which will have the effect to deter bad men from committing a crime, we should be practical; should enact a penalty which will accomplish the purpose in view. Let us, by all means, go on and make men better by moral teaching and example, but when a man has been proved to have committed a murder, let us make use of him to prevent others from committing other murders. Let that be our chief object; he belongs to society for that purpose, and it is the duty of society to make such use of him as will protect its members. It will do no good to examine his head, and discover that he is endowed with natural proclivity for murder, or a "peculiar organization," suitable for some other kind of crime; that his moral education has been defective, or that there is any other excuse for his being a bad and dangerous man. Such examination and discovery might be interesting to the curious physiologist, but are of no practical use to the Legislature or the Judge. The best use that society can make of that murderer is to hang him. It will end *his* deeds of crime, and will serve to check the proclivity to murder in *other* men similarly endowed.

There are other portions of *E's* article which I should like to notice, but I am consuming too much of your space. I will, however, remark in reply to his concluding paragraphs, that Wisconsin cannot be cited as a proof that the abolition of the death penalty has diminished the number of murders. For a year or two after the substitution of imprisonment for life, the number of murders increased, till in 1855, Mayberry, at Janesville, and DeBar, at West Bend, were *executed* by the people, and since then, owing, as I stated in my former article, to the terrible but salutary lessons than taught, fewer murders have been committed. But already, I am told by a gentleman well informed on the subject, criminals are recovering from the fear then produced, and murders are again common. It is because of this fact, so rapidly becoming apparent, that the attention of the Legislature is invoked to the subject.

FIRE.—We regret to learn that the Steam Saw Mill of Messrs. KINGMAN & DAMMAN, situated twelve miles north of this place, was burned to the ground yesterday morning. This is a serious loss, and will be felt by this whole community, who depend in great measure on that mill for lumber. The loss to Messrs. K. & D. is estimated at $3,000. We have not learned whether there was any insurance on the property.

P. S. We learn since that the property was not entirely destroyed.—*Monroe Freeman, 18th.*

Two Fatal Railroad Accidents.

The Rochester *Union*, of the 17th instant, gives the following particulars of a fatal accident on the N. Y. Central R. R, last Monday night:

"A dreadful accident occurred on the Central Railroad last night, involving the loss of one life, through obstructions placed upon the track by some fiends in human guise. The mail train by the way of Auburn, due here at 11:20 last night, left Canandaigua ten minutes behind time. It was drawn by the locomotive "Daniel Webster," John Snell, engineer, Mr. Harwood, conductor. When proceeding at the rate of 20 miles per hour, about four miles west of Canandaigua, at a curve in the road, the engine struck an obstruction placed upon the track and plunged down an embankment fifteen feet, landing in a ditch at the bottom. The engineer had no premonition of danger until the engines struck. He was thrown some twenty feet from his engine, striking in the mud and water. The tender followed, together with a freight car, an express car and a baggage car. The two passenger cars kept the track and were uninjured.

The Engineer expired in fifteen minutes after the accident occurred. No injuries were found upon his body; he died from the bursting of an internal blood vessel. To show how strong was the ruling passion in dissolution, we may state that the last words the dying man uttered related to his engine. He asked where his firemen was, and being answered that he was not much injured, he said, "tell him to take care of my engine!"

The cause of the accident was seven bars of track iron placed upon the track, five lengthwise between the rails and two crosswise. One of the bars was cut into three pieces by the engine, another was bent and driven into the earth. The villains who placed them on the track selected a spot favorable to the success of their hellish purpose. We trust that no efforts will be spared to ferret them out and bring them to justice.

The Buffalo *Republic*, of the 19th, contains the subjoined account of a fatal accident on the Buffalo and State Line Rail Road, on the same night as the one above recorded:

As the 10.40 Night Express was going along at the rate of twenty miles an hour, on Monday, three miles above Dunkirk, by the breaking of a rail, the third passenger coach ran off the track and down a thirty foot embankment into a ditch containing water four or five feet deep. The fourth car was almost dragged down the bank, but the strength of the coupling prevented it, and it was held in a position half way down the bank, by its coupling to the last car.—There were five passenger coaches full of passengers, two baggage cars, and locomotive and tender. The engine, tender, two baggage cars and two passenger cars, remained on the track uninjured, the train having only gone about its length before it was stopped by the engineer.—The car that went down the bank, turned completely over, bruising and wounding many of the passengers. A young lady from Attica—Miss Brainerd—going west with her father, when the accident occurred was in the middle car, sitting near the stove, and as it tore down the bank the flooring of the coach came out, and she fell through into the river, the stove falling upon her. But one of her lower limbs was visible, projecting from the water. She was immediately taken out, and Mr. Gulligan ran three miles to Dunkirk, the nearest point, for a physician. The physician came and found that the young lady was not dead and had her conveyed to Dunkirk, where she partially recovered, but she took mortifying—Tuesday—she died, having received some severe injuries, occasioned undoubtedly by the stove falling upon her.

One man had his leg broken, and another his shoulder blade and collar bone. Tuesday morning, on endeavoring to get the car out of its position, a man was found dead under it, crushed into the water by the car.

This accident is the first occasioning the death of a passenger on this road, during the five years of its running.

The name of the man found dead was subsequently ascertained to be William Ward, Jr. He resided at Steuben, New York.

LIQUID ROCKS.—Dr. BENJAMIN HARDINGE occupies four and more columns in the New York *Tribune*, in an advertisement setting out, what, if true, is really a wounderful discovery. The Doctor claims to be able to reduce quartz rock to a liquid state. While in such state of liquefaction he can extract every particle of gold or other precious metal, and then, holding rock the in its liquidstate, put it in casks, transport it where need ed, and turn it back again into rock, in the form of brick, or blocks of stone. Some of the allegations in the advertisement are backed up by certificates from able chemists and metallurgists.

Receipts of grain from the country have been good for the past week, and the market has been active at steady rates. Although no positive advance can be quoted, the feeling is decidedly better, and all the wheat offering is readily taken at full prices. Good club commands 94 cents, and winter, which is very scarce, would bring $1.12½. Prime samples of Barley are worth $1.05. Oats are much wanted at 40a42 cents, and will go higher.—Corn and Rye are steady at our quotations. Butter is in fair demand. Potatoes and Eggs dull. Pork is very scarce, and good hogs sell quick at $6.50a9.00. Hides meet with ready sale, at our figures. For other articles see price current.

General business has been dull during the week, but there are symptoms of a speedy revival. Our Forwarders are already commencing preparations for the coming season, and none doubt that it will be by far the busiest one Milwaukee has ever seen. Several heavy operations in Real Estate have transpired during the last few days, and more are in negotiation. Within the next ten days we shall doubtless have steamboats running on this Lake.

A bold swindle on several of the Banks and Banking Houses of this city came to light Friday. The sharpers succeeded in victimizing Chicago and St. Louis Banks, as well as our own. Strong hopes are entertained that the rascals will be caught and brought to justice.

The weather, yesterday, was mild, bright and spring-like. We look for an early opening of navigation.

We annex the Weekly summary of the market from Goodrich & Terry:

The extreme scarcity of money in the interior continues to depress trade in the Grocery, as well as other departments of business. So far as we can learn, country merchants generally hold light stocks, and nothing prevents them from replenishing, but want of the "wherewith" to pay. It is hoped, however, that the large quantities of Grain still remaining in farmers' hands will, in view of the opening of navigation, soon begin to move, upon which an easier state of things, financially, and a brisker trade may be anticipated.

Our market for the leading staples, Sugar, Molasses, Tea and Coffee, remains as last noticed.

By latest advices, the arrivals of Sugar at New York had been large, and some sales had been made from wharf at ⅛c reduction from the highest point attained during the recent advance, though the same prices were obtaining from store.

At New Orleans considerable lots of raw sugars and molasses are being imported from Cuba, owing the domestic crop to be insufficient to

The next case is that of the State vs. Peter Yates, indicted for obstructing the Milwaukee River.

The ejectment suit was not ended last night; Mr. Ryan will finish his argument this morning, (24th), which, together with the charge of the Judge, will occupy the forenoon.

Edward Ryan, indicted for resisting an officer, was arraigned, plead not guilty, and gave bail for his appearance to be tried, in the sum of $800.

A COUNTRY EDITOR IN TOWN—DECIDEDLY A BAD TIME.—The editor of the Elkhorn *Independent* (Mr. JAS. DENSMORE) makes dolorous complaint of the loss and inconvenience to which he was subjected, during a recent visit to Milwaukee, by reason of the "late rising, lazy, even slothful habits" of the city, as compared with "the early rising and industry" of the country. It seems that brother DENSMORE came to town, week before last, specially to hear Mr. Gough and incidentally, to attend to some business. The cars were a little behind time and our country friend had to do some "tall walking" to get to the Lecture Room by the hour announced. Arrived there, he found, to his extreme disappointment, that Mr. GOUGH had not come—having been detained, as our readers may remember, by the effects of the flood in Illinois. Hereupon the editor was informed, by "those acquainted with Gough and his habits," that "it was not unlikely he was on a carouse and too drunk to get there"—which charitable conclusion, it may afford brother DENSMORE pleasure to know, was utterly without foundation. As the lecture was "a no go," Mr. D. undertook—it being then between 5 and 9 P. M.—to do his errands, "but nobody was at home;" i. e. in their stores, or counting rooms—business hours being over by that time in the evening. No other resource being left, our editorial friend resolved to rise betimes next morning, and even deny himself the luxury of a city breakfast, in order to devote the whole time before the cars started (8.30 A. M.) to do up the said business. But ill luck still pursued him. He called at the *Free Democrat* office, but "both editors were invisible—one was gone to Madison, and the other was snoozing off the sleep lost going to the theatre the night before." He next did us the honor of a call, but "neither editor, foreman, or clerk of the *Sentinel* office were visible, and the time fast approaching 8 o'clock" (the said "foreman" having been at the office till 2 A. M. that morning and the "editor" till 11½ P. M. the previous night.) Still hope fail, brother DENSMORE now visited our wide-awake neighbor and capital organ, MOSES, but even he was not in.—Time pressed, lends were wanting and under the blind direction of a "guy" in the *Sentinel* job room"—who appraised our country friend at "Miller & Type Foundry was "about two squares beyond the Market House," but on which street deponent omitted to say—Mr. DENS. MORE instituted an active and comprehensive search among the "stores, bakeries, groceries and taverns," for "about two blocks beyond the Market House," in search of MILLER and lead. Success at length crowned his labors, the locality of the foundry was discovered, and—but let brother DENSMORE tell his own sad tale:

A woman dressing type, a boy sweeping out, were all that were in. Mr Miller would be down in about an hour. There was not a head in the establishment east.—A rapid flight to the station was made, and it was just reached in time.

Thus was the entire journey lost, at an expense of six dollars in money. Milwaukee is certainly a great institution!

From all which our Elkhorn friend deduces this moral: that we city people should go into the country, retire 9 P. M., rise at 5 A. M., breathe the pure morning air and learn to appreciate and eschew "the nuisance of slothfulness." Excellent advice, which we shall be most happy to follow, as soon as brother DENSMORE will inform us how we can manage to do it, and at the same time edit and publish a daily morning paper, which is rarely put to press before midnight, and usually keeps the editor, foreman and all hands, busy in their respective vocations, till 10 or 11 P. M. and frequently much later.

MERCHANTS' AND TRADERS INSURANCE COMPANY.—The election for Directors of this new Insurance Company, held yesterday, resulted in the choice of the following gentlemen:

S. L. Rood, E. D. Holton, Geo. Le Feve, L. Kennedy, A. G. Van Schaick, H. Mabbett, G. Steele, M. S. Nichols, B. Bagnall.

The officers elect are: S. L. Rood, President; L. KENNEDY, Vice President; E. D. HOLTON, Treasurer; L. W. KENNEDY, Secretary.

Of the 900 shares subscribed, upwards of 700 were represented at the election.

MUSICAL SOCIETY MASQUERADE.—This entertainment, which comes off at Young's Hall *to-night*, will be a most attractive affair. Those who intend to be present should be at the Hall by *eight* o'clock, as the grand, comical overture of the "Mordgrundbruck" will commence precisely at that hour. *Every* pains will be taken to ensure the comfort and enjoyment of the assembled guests, and the strictest order will be maintained.

N. Y. CENTRAL R. R.—LINE OF PROPELLERS.—We are glad to learn that Messrs. KELLOGG & STRONG have been appointed agents for the new Line of Propellers which the N. Y. Central R. R. Company intend to run during the coming season, between Buffalo, Milwaukee and Chicago. These Propellers, nine in number, will be first class vessels, and will run to Kellogg & Strong's dock in the river. Should the business warrant it, more Propellers will be added to the line during the season. There will be brisk times in the river, the current year.

PURCHASE OF WAREHOUSE AND LOTS.—Messrs. KELLOGG & STRONG have bought the well known Sweet Warehouse on the river, with the dock and lots belonging to it, for $50,000. They have a front of 410 feet on the river, and ample room for the transaction of business. River property is rapidly rising in value, and quite a number of new warehouses will be put up, on either side, during the coming season.

TROY AND WESTERN LINE.—Merchants desirous of making advantageous contracts for freights are referred to the advertisement of this well known Transportation Line in to-day's *Sentinel*. The Agents, Messrs. Hale & Co., are the parties who purchased on Saturday the river front next East of Sweet's Mammoth Warehouse, with the intention of building a warehouse thereon, for their own business.

A RICH COLONY COMING TO MILWAUKEE.—The *News* of Sunday morning contains the following local item:

Through the courtesy of Wm. Hiet, we learn that Count Kleist von Nollendorf, son of Field-Marshal von Nollendorf, engaged in the war of 1813, against Napoleon, intends to emigrate to Milwaukee, early next spring. The Count received in his last name at the memorable battle of Nolendorf, fought on the 30th of August 1813, where the French General, Vandamme, was made a prisoner, and his army of 36,000 men nearly destroyed. He brings with him about two hundred respectable families, and of his own resources, along $4,000,000. The present residence of the County is in Prussia.

THE CARNIVALE VERRIN.—This Society gave a series of performances at the Theatre in Market Hall, last evening, which attracted a very crowded house, and were received with the greatest satisfaction. The Society resumes business, at an early hour this morning, and will continue through the day, winding up with a grand Masquerade at "the Albany" to-night.

SUSPECTED CASE OF POISONING.—Application was made to the Police Justice yesterday in relation to a suspected case of poisoning. It was claimed that a German had been poisoned by his wife, by having opium administered to him in such large doses as to have caused his death. The Police took the matter in hand for investigation.

CHARITY BALL LAST NIGHT.—The Young Men's Ball, last night, at Young's Hall, was very numerously attended, passed off pleasantly, and must have yielded a handsome sum for the treasury of the Orphan Asylum.

LAIDLAW'S LAND AGENCY.—MR. LAIDLAW, in his advertisement this morning, notifies Real Estate owners who have property to sell, that he will have a customer for them next week. Read and profit by his announcement.

MILWAUKEE SAVINGS' STORE.—See the advertisement of MACK BROTHERS in to-day's paper. They are selling out their large stock at very low prices, to make room for a rich assortment of Spring and Summer Goods. Those in want of bargains, should give them a call.

CIVIL ENGINEERS AND SURVEYORS.—Read the card and references of Messrs. MARSHALL & PETSELY, Civil Engineers and Surveyors, in to day's paper. These gentlemen are new comers who bring with them excellent testimonials.

Notice Extraordinary!

WE WOULD NOTIFY the merchants and the public generally in the Western States that the Match Manufactory of R. W. PIERCE & CO., Milwaukee, Wis., is in full and successful operation, notwithstanding the declarations of a match concern in Detroit, Mich., that our establishment had burned down—that R. W. Pierce & Co. had united—that no more R. W. Pierce's matches would be seen in market, &c. &c. We are well aware that all such assertions will in due time recoil with bad effect upon the party who originated them, and what we wish is that the public should be set right in the matter. We now have facilities for manufacturing matches as cheap, or cheaper than any other establishment in the West, and are able to qualify, we will leave them who have used them for the last thirteen years to be the judges, and will only remark that our business has increased from less than $5,000, in 1844, to more than $30,000, in 1856.

A Perpetual Ticket for $25!

GENTLEMEN desirous of acquiring a thorough Mercantile Education, are assured that the advantages presented at this institution are unsurpassed.

The Principal takes this opportunity, to acknowledge the courtesy of several of the most distinguished Shipping and Jobbing Houses in the East, who recently allowed him to examine their books, besides explaining many original plans for economizing labor, which, adopted as in some instances after the experience of half a century, may be justly designated the *ne plus ultra* of the art.

These advantages, united upon Mr. SALOM'S long practical experience in a variety of Counting Houses, have enabled him to elaborate a novel and valuable series of transactions, introducing all the great heads and ramifications of mercantile routine to be actually developed by the student. A perpetual ticket confers the privilege of instruction in Book-Keeping at all times, as well as tuition in Writing, Mercantile Calculations, Law, Correspondence Forms, &c.

LESSONS IN Foreign Languages.

MR. AND MRS. A. S. B. DE CRETY, from Paris, for four years past instructors in foreign languages in Milwaukee, have the honor to inform the public that they will form classes in the French, Italian and Spanish languages on the 1st of September next. The course of instruction will be according to the age and intelligence of the pupils, and the classes kept entirely separate, their hours being arranged with that view.

Gentlemen and ladies who begin to speak either of these languages, can receive lessons in Reading and Conversation, Mr. DE CRETY furnishing books of the best French authors. Those wishing to learn vocal music or the piano, will find a competent music teacher in the establishment.

The hours of instruction will be from 6 to 11 o'clock A. M., and from 2 to 4 P. M. and in the evening from half past 6 to 8, for conversation.

Mr. DE CRETY will also give lessons in French, Spanish and Italian, at the office of gentlemen only, from 7 to 10 o'clock in the evening, as also lessons in Fencing, the use of the Sword, and all military exercises. Persons of delicate constitution and feeble temperament, who have confined their offices and engaged in sedentary pursuits, will derive from these exercises, improvement in their health, acquire strength in their limbs and find an agreeable recreation.

Mr. DE CRETY will also form similar classes for children, from 10 to 15 years old, at his house, or office, as parents may prefer. Fathers and mothers who desire to see their children young, active and robust, can judge for themselves, after a few weeks trial, as to the effect of these different exercises upon their health.

The continued patronage of the public is respectfully solicited.

To MERCHANTS.—Mr. DE CRETY will take charge of French correspondence with the principal cities of France and will procure all Price Currents that they may want.

BAYLIES & LINCOLNS

212 and 214 East Water St.,

MILWAUKEE, - - WISCONSIN.

THE proprietors of the Milwaukee Commercial College would respectfully announce that the liberal patronage that has been extended to this deservedly popular enterprise, has led them to extend the field of study, so that it will embrace every branch of a thorough Commercial Education. As there are no classes formed for any department of study—thereby enabling the student to enter any time, each one receiving separate instruction—the student, on entering is placed in the Counting Room, with actual transactions to work from, thus making his education not merely theoretical, but practical to the last degree. The Commercial Course includes Book Keeping by Double Entry, in its various forms, as adapted to Wholesale, Retail, Commission, Manufacturing, Custom House, Banking, Railroading, in stock partnership, and company business; Commercial Calculations in per centage, Exchange, Bank and Regular Discount, Averaging, Accounts by Simple and Compound Equations, &c., according to the most approved methods. Commercial Correspondence, including account sales, account currents, drafts, bills of exchange, &c., &c.

Also, a perfect system of detecting Counterfeit Bank Notes, will be given to each student.

A good Hand Writing guaranteed to every person completing a full course.

During the Sessions, Lectures on Commercial Law will be delivered by eminent legal and business men, and examples will be spared to make this department particularly attractive.

The Reading Room will be supplied with the various Daily and other papers and publications.

Particular attention will be given to Ladies who may wish to acquire a business education, and separate rooms have been beautifully fitted up for their use.

Merchants and other business men are informed that at any time, by a few days' notice, they can be supplied with competent accountants, and young men will be assisted in procuring situations when desired.

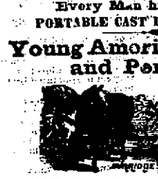
Every Man his own Miller.

PORTABLE CAST IRON GRAIN MILL.

Young America Improved and Perfected.



THE above mill was patented by Charles Seavert, of Ill., Feb. 27th, 1855. This mill took the first premium at the Ohio State Fair, 1855, over all other mills and during the fairs of the fall of 1856, the first premium in use in many others in the State Fairs of Ohio, New York, Tennessee, Michigan and Minnesota; also, at the County Fairs of the following Counties of Ohio and Indiana, viz: Guernsey, Crawford, Logan, Medina, Ashland, Wayne, Knox, Montgomery Clark, Erie, Lorain, Richland, Plymouth district, Chester, Frederick. In Indiana, Tippecanoe, Jefferson, Wayne, Fayette, Shelby, Jennings, Whitley and Fountain.

Farmers, Saw Mill owners, Livery Stable men and all others feeding stock of any kind are invited to examine the merits and superior advantages of the above mill.

The Young America will grind as much corn in the cob, shelled corn, oats, barley, and all other grains for stock as any mill of the same size and with much less draft.

That we claim is great strength, durability and simplicity, being so simple that a child can learn to grind with safety.

In the next we claim the small expense to renew the grinding parts of the mill, and the ease with which the grinders are put on the mill, at a cost of not over three dollars, which makes it superior and more economical than any other mill. The grinding parts of the above mill are made of the hardest of cast iron, as hard as Scotch or cast steel can be tempered. Each set will grind from 50,000 to 60,000 bushels of grain, in proper order. Besides the set of grinders on the mill, an extra set will be sent with each mill sold, making it equal to two common mills. When found necessary to change the grinders, all ordinary one can do it in twenty minutes.

As a proof of the estimation in which the Young America is held in Ohio, we transcribe the following: During winter and spring of 1855-56, 2500 were made and sold in Ohio, at Zanesville, by Douglas Smith & Co.; Hall & Giles of Mansfield, Burridge & Fancener of Cincinnati, and at West Philadelphia.

At the time there is not less than 200 being sold every week in Ohio, at retail, besides those sold in other states east and west.

The above mills being manufactured and can be furnished at wholesale and retail, from the Wisconsin Iron Works of A. J. Langworthy, on the water power in the city of Milwaukee. The mill is warranted perfect in all respects.

Dealers in agricultural implements and machines, of the State of Wisconsin, are requested to call and make arrangements for the sale of the above mills, to whom a liberal discount will be made on the retail price; also any others wishing to engage in the business will receive all attention by good men who have teams, in any part of the State, who would peddle the mills through the country. Four can be stored on a wagon at a time—this last arrangement would be made with them.

The above mill will grind from 8 to 90 bushels of grain per hour, in accordance with the kind and condition of the grain.

Price of the Young America $55—ready to hitch to and warranted to grind as fast as any mill of the same size when properly worked, and with as little draft.

For further information address or see the undersigned.

In reference to which they would suggest, that the facility with which their goods can be fitted, every garment being made in the most fashionable style, and the same breast being varied to suit different proportions of the same measure, should render them the preference over any clothing of this class which are indefinitely marked. The difficulty of ready fitting has partially been obviated, it is presumed, has been very generally realized. HEALTHY BREAD!

MADE WITH

JAS. PYLE'S DIETETIC SALERATUS.

THIS article is deprived of the caustic impurities, so well known to exist in all common Saleratus, thereby dealing destruction to thousands not aware of its injurious qualities. So delicately is it in the constitution of children, that when they and the parents have been regular consumers of Saleratus Bread, there is but little chance for recovery from infantile or contagious diseases. In this way hundreds have died with consumption, the awfreality of which is forcibly demonstrated, in the mortality among children, in the New England and other States, where warm bread and cakes is so generally consumed.

JAS. PYLE'S DIETETIC SALERATUS

Is of vast importance to the public, and is rapidly coming into use. Being deprived of all caustic impurities, it is quite as harmless as flour. In point of healthfulness, having powerful raising properties, and is altogether superior to Baking Soda. No intelligent lady will dispute this after trying it.

Pyle's is packed in round packages, each bearing the name of James Pyle, without which it is not genuine. For sale by John Furlong & Co., G. A. Folsom, Chapin & Gregory, Milnor, Sherwood & Co., Shoemaker & Co., Madison, E. H. Jones & Bro., Fond du Lac; Wm. A. Gross & Co., Chicago. JAMES PYLE,
